Order:

The Govt.of India has published the National Disaster Management Plan which is in consonance with Sendai Framework of United Union and the Govt. of Tamil Nadu is also in the process of finalizing the plan. According to the plans, the focus has shifted to mainstreaming of Disaster Risk Reduction(DPR) into development plans and every Ministry and every department is to mainstream disaster preparedness and disaster mitigation as a part of the development plans.

2) The Line departments are also preparing their Disaster Management Plans. The Disaster Management Plan aims at reducing the vulnerability due to disasters and reorienting development activities to minimize different hazards by mainstreaming Disaster Risk Reduction into ongoing programmes. The Plans also envisage involvement of multiple stakeholders There is also a paradigm shift of disaster reduction/mitigation strategies from reactive to holistic and preventive.
